Soft skills : Curiosity, Atomic design, Agile, Workshop facilitation, User-centered solutions, Stakeholder management, Strategic Product Vision, Prioritization

Tools : Figma, Adobe cc, Claude code, Visual code

CURRENT POSITION

Freelance

UX/UI Designer since Jan 2024

I continue to advance my career in the design industry, specializing in the creation of complex products from business software to custom web applications.

Mynotary - Lyon France

UX/UI Designer Jan 2022 - Jan 2025

- Designed new features for our SaaS platform using service blue print, user journey etc...
- Led the Research phase, including user interviews, prototype & testing
- Managed the UI phase, creating a new design system and interactive prototypes.

Achievements:

- More than 10 features created
- The UI fixes and improvements we implemented directly resulted in an approximately 80% reduction in churn.
- An estimated 100K direct revenue from for the company per year over a 3 year time frame

Isotech company - Lyon France

UI Designer Octo 2019 - Sept 2021

Key responsibilities:

- I created an e-commerce website for DIY and construction materials.
- Led the Research phase

Biggest achievement:

- Invented a feature that allowed the company to stand out in its market.
Generating a direct impact : €1M in revenue in the first year.

Stem agency - Oslo Norway

Intern Designer Mar 2019 - Aou 2019

Career Change to Design In 2018, transitioned from hospitality to design, studying graphic design and UX. Secured an internship within six months, focusing on graphic and web design, with additional contributions to print projects.
